

FOR IMMEDIATE RELEASE

NETCON Releases New Version of CIMPager to GE/Fanuc

London, ON - January 2005 - NETCON announced the release of a new version of CIMPager to GE/Fanuc for inclusion in the V6.2 release of CIMPLICITY. FirstPAGE V8 was integrated into this release of CIMPager along with support for all versions of GE/Fanuc CIMPLICITY from V4.01 SP10 - V6.2.

Currently running in production in many large assembly plants, including all General Motors facilities, CIMPager provides you with the ability to use wireless messaging devices to convey CIMPLICITY alarms to the staff who need to know very quickly and accurately.

Users of CIMPLICITY and CIMPager may contact the CIMPLICITY support center or NETCON for information on upgrading to this latest release.

About NETCON Technologies Inc.

Founded in 1991, NETCON Technologies is the global leader in alarm and event messaging routing for the enterprise. Using wireless messaging, and LED sign control systems, NETCON provides automated messaging software to assist organizations in delivering alarms and alerts to the right individual, whenever, wherever. Designed explicitly for high volume and rapid delivery, NETCON's solutions service some of the largest organizations in the world.
