"We met SeQent at the 2017 Rockwell Automation Fair in Houston. With the assistance from our Rockwell Automation distributor Border States Electric and our Motorola Solutions dealer Electronic Engineering, a formal introduction was made and we successfully installed a turnkey solution that built a software bridge between our FactoryTalk View SE HMI environment and our Motorola Capacity Plus two-way radio system. This solution has transformed our plant floor communication process and SeQent has demonstrated a willingness to take Voice of Customer (VoC) requests and make the appropriate changes. For instance, we met with them at the 2018 Rockwell TechED event in San Diego and within a couple months, our enhancement request was delivered and the system is functioning as promised and expected"
